

# BRAINERD DAILY DISPATCH.

VOLUME 5, NO. 46.

BRAINERD, MINN., THURSDAY, JULY 27, 1905.

PRICE TWO CENTS

## AT THE FIRST SESSION

JAPANESE ENVOYS WILL PRESENT TERMS OF PEACE TO THE RUSSIANS.

TO CONTINUE NEGOTIATIONS

THE CZAR'S PLENIPOTENTIARIES MUST ACCEDE TO PRELIMINARY DEMANDS.

Washington, July 27.—Whether there is to be peace in the far East or a continuance of the war will be practically decided at the first meeting of the Washington conference which will convene at the navyyard, Portsmouth, N. H., Aug. 5. Baron Komura will on that occasion communicate to M. Witte, the senior Russian peace envoy, the essentials of Japan's peace terms for further negotiations. This, it is declared, will not be done in a spirit of defiance. Indeed there are many evidences in the possession of the neutral governments that Japan is coming to the Washington conference, not imbued with a desire to humiliate Russia, but only to exact terms which will insure a lasting peace in the far East, and which will in a measure compensate Japan for the financial losses in the present conflict.

Throughout the preliminary negotiations, however, Japan has made it clear at Washington that she wished to avoid unnecessarily tedious negotiations. "We are not going to the conference to write into the law of nations a new chapter," said a high Japanese official recently. For this reason the Japanese plenipotentiaries will adopt the programme of at once laying on the conference table those terms, the acceptance of which without modifications they are instructed to insist upon as a basis for further negotiations.

### Character of Terms Known.

Although guarding with great care the official statement of her terms, Japan has not kept from several friendly governments the general character of these terms. Official Washington has been enabled to form within certain limits a general idea of their character.

It is known that Japan will demand an indemnity that will approximately cover the cost of the war to date. This was communicated to Russia early in the preliminary negotiations. The amount is still a secret, but it is based upon the most careful estimates of the cost of the war and will be accompanied by a more or less detailed statement, showing the method by which the final figures were computed. It will not fall far short of \$1,000,000,000, according to advices reaching here from well informed sources. Besides the indemnity, it is believed, Japan's other essentials to the continuance of the negotiations are the cession to Japan of Sakhalin and the transfer of Russia's lease of the Liaotung peninsula and of the railway as far as Harbin; the recognition of Japan's predominance in influence in Korea and the return of Manchuria to China.

If the Russian plenipotentiaries are prepared to accept these essentials, the officials here are confident that the basis will be laid for negotiations sure to lead to the signing of the treaty of Washington, bringing peace in the far East.

### Tedious Subjects Still Remain.

As for the subjects remaining to be discussed, a tedious one, it is believed, and one which Russia will be disposed to negotiate with the greatest caution, is the programme for the restoration of Manchuria to Chinese control. Japan will insist that she remain in control of the administration of the province until order is restored, at the same time giving a definite pledge finally to evacuate as soon as China shall be in a position to take up the reins of government there and maintain order. It is believed Japan desires to adopt the course followed by the Washington government with reference to Cuba.

A second subject for the plenipotentiaries will be the surrender of all the Russian ships now interned in neutral ports. Some are inclined to believe that Russia may induce Japan to take these in part payment of the indemnity.

Europe believes that Japan will demand the neutralization of Vladivostok. The Washington government does not share in this belief and it is known that Russia will not permit the subject of Vladivostok to come before the conference. Rather than submit to Japan's dictation on this point, Russia has let it be known that she would certainly continue the war. Little progress has been made in the direction of an armistice. London has not seen its way clear to aid the

president in his efforts to this end, and Japan has in the most determined manner indicated its unwillingness to consent to an armistice until her plenipotentiaries have met the Russians in the conference. The object of this is because Japan wishes to be assured that Russia is prepared to negotiate in seriousness for peace before the Japanese commanders yield any of their ground in the field or give the Russians time to increase the forces at the front.

OMINOUS FOR THE RUSSIANS.

Jap Landing at Dekastries Portends Important Events.

London, July 27.—The Japanese landing at Dekastries, which is the terminus of the only cable line connecting the mainland with the island of Sakhalin, is regarded by the London morning newspapers as an attempt to seize the mouth of the Amur river, in order to enable the Japanese to dispatch an army up that great waterway for the purpose of threatening the Russian communications. Japanese gunboats and torpedo boats could thus reach Harbin and give effectual assistance to any attack on the Russian fortifications. Both the Ussuri and Sungari rivers are navigable for vessels of light draught and thus the Japanese could advance inland in three different directions for a considerable distance. If, as supposed, Japan has a river expedition in readiness, the mere threat of its advance may suffice to change the plans of the Russians and compel their retirement from the Kirin and Fengwa districts upon Harbin.

### VISIT TO OYSTER BAY.

Will Be Made by Baron Komura and Minister Takahira.

New York, July 27.—Baron Komura and Minister Takahira, the Japanese peace plenipotentiaries, will make an informal visit to President Roosevelt at Oyster Bay during the day. Only the two principals of the delegation will make the trip, the other members of the suite remaining in this city to transact the business of the commission, of which there is a great amount.

On his return from Oyster Bay Wednesday, where he went to notify the president officially of the arrival of his colleagues in the negotiations for peace, Minister Takahira went to the Waldorf-Astoria hotel, where he remained in conference with Baron Komura for several hours. After the departure of Minister Takahira Baron Komura spent the evening in his apartments.

### NORTH OF VLADIVOSTOK.

Japanese Battalion Lands and Seizes a Lighthouse.

St. Petersburg, July 27.—Dispatches from Manchuria report the landing of a Japanese battalion and the seizure of a lighthouse on the Siberian coast near Dekastries, a post formerly called Alexandrovsk, 700 miles north of Vladivostok, after a preliminary shelling by torpedo boat destroyers.

Military officials here attach importance to the episode only in connection with the Sakhalin campaign, and say that as the landing was effected at a place where the straits of Starat, between Sakhalin and the mainland, are narrowest, it apparently is part of the strategy of the Japanese to prevent the escape of the Russian garrison in Sakhalin across the straits. They add that the landing is too far north to have any bearing on the main campaign or on operations against Vladivostok.

### BIG BATTLE IN PROGRESS.

Thousands of Japs Attack Russians on the Tumen River.

London, July 27.—The correspondent of the Daily Telegraph at Tokio sends a report received from Osaka, Japan, to the effect that a Japanese army of many thousand men is attacking the Russian position on the Tumen river.

### WITTE STILL AT CHERBOURG.

Russian Peace Envoy's Departure Is Delayed.

Cherbourg, France, July 27.—M. Witte has not left Cherbourg owing to the non-arrival of the Kaiser Wilhelm der Grosse, which was fog-bound at Southampton. He expects to sail early in the morning.

### Earthquake in Michigan.

Marquette, Mich., July 27.—Marquette and other points on the Marquette iron range Wednesday evening experienced a distinct shock of earthquake. A dull rumbling noise accompanied the disturbances. Tall buildings were swayed, dishes rattled and windows were shaken, but no damage was reported.

### Shonts and Stevens at Panama.

Panama, July 27.—President Shonts and party arrived here Wednesday. For several hours Mr. Shonts, Chief Engineer Stevens and Canal Commissioner Ernst conferred with Governor Magoon. No date has been fixed for the examination of the canal work.

## H. F. MICHAEL CO'S Daily Store News

### Muslin Underwear Added to the Sale

We find that some styles of our muslin underwear are to large in quantity to close the season with and we add these to the clearance sale. They will go on sale tomorrow morning and remain for three days only. Please do not make the mistake some of our friends have, who have waited several days after the goods have been placed on sale and then expect to find a full assortment. This plan does not work here as patrons are learning, that when the H. F. MICHAEL Co. advertise a sale they give values and it pays to come to the sale early.

\*The assortments are broken but you will find 10c corset covers selling at 8c; 25c corset covers selling at 21c; 35c corset covers selling at 27c and equal reduction on the higher priced ones.

\*25c drawers will sell at 21c; 39c drawers at 29c; 60c drawers at 49c; \$1.00 drawers at 89c and \$1.50 drawers at \$1.33.

\*We have a goodly assortment of gowns and will sell a nice one at 59c, a 75c garment at 67c; \$1.00 gowns at 89c; and higher priced ones at like reductions.

\*We have some values in the better qualities of skirts. \$5.00 skirts at \$3.98; \$1.50 skirts at \$1.35 and others equally reduced.

July clearance prices remain on all articles advertised for the clearance sale. Some numbers advertised when the sale opened have been closed out but we have added other values to take their places.

## FROM YELLOW FEVER

SIX ADDITIONAL DEATHS ARE RECORDED IN ONE DAY AT NEW ORLEANS.

## TO STOP SPREAD OF DISEASE

STRINGENT SANITARY AND QUARANTINE MEASURES TAKEN BY AUTHORITIES.

New Orleans, July 27.—Six deaths from yellow fever were recorded up to 6 p. m. Wednesday, making a total to date of forty-five. The number of new cases reported Tuesday, but compiled Wednesday, is eleven, making all told to date 165. There are now nineteen foci of infection.

The organization of forces for fighting the spread of the infection and for a campaign of education and practical application of the mosquito extermination plans has been completed, and besides 100 men put on as extras by the city to clean gutters, 350 men are working as part of the system of sanitation.

Citizens are organizing into sanitary clubs and a house to house canvass will be made to assure the screening of every cistern and the oiling of every cesspool and water pond.

The business men have provided funds for this work, and, as the people are now aroused to the necessity of action, there will be no let up.

Yielding to the sentiment of the community, the state board of health has adopted new regulations for the fruit ships providing that they should remain six days at sea between the last port and New Orleans and requiring fumigation at the port of departure and fumigation here before the discharge of the cargo.

Tuesday the steamship Ansel of the United Fruit company was allowed to come up after having been at sea four and a half days and, according to the ship's papers, she stopped at the quarantine station exactly forty minutes, during which time her crew of forty-one men were examined and passed.

### Aroused People to Action.

This aroused the people to action and a committee waited on the officers of the state board of health and insisted that the arrangements be made effective immediately, regardless of the fruit ships at sea and on the way up.

Dr. Souchon, president of the board of health, after the conference decided to put the regulations into immediate effect and so instructed the quarantine officers. Later he summoned the fruit importers to his office and explained the matter to them. Naturally they realized that the sentiment of the public was such that personal sentiments would not be allowed to interfere in the present emergency. The people are convinced that the infection was brought here by the fruit steamers.

In view of the many quarantine complications which have arisen, Dr. Souchon has called a conference here next Sunday of the health officers of Texas, Mississippi and Alabama to discuss quarantine regulations and devise a system by which travelers can be admitted with certificates of the marine hospital service. Surgeon White, who is in charge of all government work, will be present and participate.

A report to the marine hospital service Wednesday night from Bay St. Louis, Miss., stated that ten suspicious cases of yellow fever have developed at Back Bay in that section. A federal surgeon will be sent there early in the morning. It is said a larger load of Italians escaped from here and went to the bay, where fever developed.

State Health Officer Tabor of Texas has placed a quarantine against the whole state of Louisiana.

### STAR WITNESS MISSING.

Flees From Portland, Ore., Into the Mountains.

Portland, Ore., July 27.—Ernest Starr, nephew of Congressman Williamson and an important government witness in the Williamson-Gessner-Biggs trial, is missing. It is stated that last Thursday, when Starr found that the Williamson jury was likely to disagree, he left Portland, going from here to Eugene, Ore., where he struck out into the mountains. The secret service agent, assisted by local officers, is in pursuit.

### Charged With Attempted Murder.

Liberty, N. Y., July 27.—Cornelius McCormick, a real estate dealer, is under arrest, charged with attempted murder, and Miss Kitty Murphy is at death's door from a bullet wound in the head. Immediately after the shooting Tuesday night McCormick disappeared, but later returned and gave himself up. The shooting was the result of jealousy and occurred on a main street in the presence of hundreds of persons.

### After Timber Trespassers.

St. Paul, July 27.—Attorney General E. T. Young has begun a campaign against alleged timber trespassers. C. S. Jelley, special counsel of the department, who has been investigating claims against several companies, reported that about \$40,000 is due the state from timber trespass. Should the companies fail to pay this amount Mr. Young says he will bring suit.

### TAFT MEETS THE MIKADO.

Secretary of War Received in Audience by the Emperor of Japan.

Tokio, July 27.—The emperor and crown princess Wednesday received in audience and entertained at luncheon the official members of the party of Secretary Taft. Shortly before noon Secretary Taft was driven to the imperial palace in the state carriage. Lloyd C. Griscom, the American minister to Japan, escorted Miss Alice Roosevelt to the palace. Crowds of people lined the streets during the journey of the distinguished visitors to the palace. At the palace the imperial princes and princesses, attended by the royal personages of the emperor's household, the military and naval staffs, members of the cabinet and council of statesmen, assisted in the reception of Secretary Taft and his party.

Minister Griscom made the presentation to the emperor, while Mrs. Griscom performed a like office when the visitors appeared before the crown princess.

A garden party succeeded the luncheon. The emperor ordered his private park opened and the Americans were driven through the grounds. The park was completed 300 years ago, and no foreigners were admitted to it before.

### Porto Ricans Demand Reforms.

San Juan, P. R., July 26.—Delegates representing sixty-five out of the sixty-six municipalities of Porto Rico and both political parties assembled in convention here to memorialize congress with a view of bringing about sweeping changes in the government of this island.

THURSDAY, JULY 27, 1905.

The Labor day proclamation has been issued by the executive department of the state, Monday, September 4, being designated.

If it should be discovered that those bones did not really belong to Paul Jones there would be trouble—for the fellow who put up the job.

A RATE WAR in fire insurance is reported from St. Paul, the trouble having been brought about by the desire of the board companies to induce the non-board companies in that city to enter the union.

The Stillwater Gazette thinks that as long as Bemidji is not over anxious to entertain the delegates of the Bible Conference in August the proper thing is to hold it there anyway, going on the theory that if they don't want it they need it's influence.

The Indians are not dying out according to the census just taken, but on the contrary have increased nearly 50 per cent during the past five years, the total population in 1900 being 6,492 as against 10,225 at the count just finished. At White Earth there are 4,968, Leech Lake 1,920, the balance being distributed between Fond du Lac, Boise Fort, Red Lake and Grand Portage.

If you are a sportsman and your dog is not sufficiently trained you had better attend to it at once as the last legislature passed a law prohibiting the "training" of hunting dogs during the month of August. Over anxious hunters were in the habit of getting in some early work under the guise of "just out training the dog" and the gentlemen of the legislature have put a stop to it. Your dog can legally be shot if found in the hunting fields during August.

Cut out the Dunn-Collins part of the argument when talking republicanism; quit striking back when some one says something that don't really tally with what you thought was right in state politics last fall; use good horse sense and be loyal to your party principles and there will be no trouble in electing a republican governor next year. It's those fellows who are giving aid to the enemy while claiming to be true blue that are making the trouble.

A HANDSOME publication, "Minnesota Lakes," has been issued by A. M. Cleland, general passenger agent of the Northern Pacific railroad, which contains much useful information for those who are looking for a delightful region in which to spend the summer months. All the places that would make ideal summer homes, summer resorts and camping sites are pictured and their virtues told. The book gives all the stations, distances from St. Paul, hotels and rates by the day, week or month, the kind of fish you can catch, and in fact is a complete history of what Minnesota has in the way of attractions for tourists and people who are looking for a place to spend the summer in a comfortable manner.

The Little Falls Transcript says that there is occasional mention in the twin city papers of possible candidates for the republican nomination for congress in this district in opposition to C. B. Buckman. None of those named admit any intention of entering the field. Two years ago the main claim of the candidate against Mr. Buckman was that there was a personal agreement that the congressman would not be a candidate for re-election. This false statement was repeated so often that a few voters had a suspicion that the man who made the statement really believed it. His absurd claim really lost him support and it is not probable that the trick will be repeated by any one. It will not be claimed at any time during the next campaign that Buckman is not a candidate.

### WOULD ENJOIN CHICAGO.

City Railway Company Seeks to Prevent Interference With Its Lines.

Chicago, July 27.—The Chicago City Railway company Wednesday filed a bill in the United States circuit court for an injunction to restrain the city of Chicago from interfering with any of the company's lines. The municipal ownership ordinance passed by the city council last March is attacked as being unconstitutional and the court is asked to grant relief from any prejudicial act of the city.

### Darning by Machinery.

Mrs. George Henry Maynard of Denver has invented a machine which darns socks, doing the work much more rapidly than could be done by hand and turning out as smooth work as the best ever seen, says a special dispatch from Denver to the Chicago Record-Herald. The darning can be attached to a sewing machine, and any rate of speed can be attained.

When Wizard Burbank has evolved from his experimentation in agriculture a cobless corn and a seedless watermelon, says the San Antonio Express, he might turn his attention to an odorless onion.

### CARTER TO RETURN TO HAWAII.

Decides to Continue in Office as Governor.

Oyster Bay, July 27.—A consideration of Hawaiian affairs occupied President Roosevelt's attention for several hours Monday. He had as a guest at luncheon and during the greater part of the afternoon George B. Carter, the governor of Hawaii. Governor Carter came to Oyster Bay determined to resign his official position to escape the annoyance to which he has been subjected since he succeeded Sanford B. Dole as governor. The president not only declined to accept his resignation, but told him to go back to Honolulu and that he should have the full support and sympathy of the national administration. Governor Carter was in a much happier frame of mind after his interview with the president than he had been before. He will take a needed vacation before returning to Hawaii. When he returns to Honolulu it will be to his official duties with new confidence and vigor. Since he was appointed to succeed Governor Dole, who was named as one of the United States district judges of Hawaii, the governor encountered great difficulty, particularly with officials in the islands. His administration has not been harmonious, evidently, however, through no fault of his.

### LED BY JOHN REDMOND.

Opposition Blocks Business in British House of Commons.

London, July 27.—The members of the opposition in the house of commons, practically led by John Redmond, the Nationalist leader, who was the mainspring of the recent defeat of the government, Tuesday inaugurated their threatened plan of making government business impossible and in pursuance of which they managed to keep the house in stormy session until 3 o'clock Wednesday morning, compelling Premier Balfour to have constant recourse to closure as the only means of advancing business. Supporters of the government, warned by the recent disaster, loyally stood by Mr. Balfour, maintaining a majority in the neighborhood of 60.

One phase of Mr. Redmond's obstructionist tactics is likely to arouse great resentment. It consisted in blocking private bills for enterprises promoted at vast expense by municipalities and commercial companies, for public works, such as railroads and tramways. No less than twenty-seven such bills were blocked Tuesday, the effect being to delay their operation for a whole year.

### GETS A LIGHT SENTENCE.

Senator Mitchell of Oregon Draws Six Months and Fine of \$1,000.

Portland, Ore., July 2.—United States Senator Mitchell, convicted of using his position to further the law practice of the firm of Mitchell & Tanner of this city, has been sentenced to pay a fine of \$1,000 and six months' penal servitude.

Pending a review of the case by the supreme court of the United States execution of the sentence will be deferred. In the meantime Senator Mitchell will be placed under bail to the amount of \$2,000.

### GETS THE SEAWANHAKA CUP.

The Manchester Captures Trophy Long Held by Canadians.

Dorval, Que., July 27.—The Manchester defeated the Alexandra in the third race of the series Monday and took the Seawanhaka cup for which eight unsuccessful American challengers had previously raced. There was a difference of 9 minutes, 37 seconds at the finish, a decisive and clean-cut victory for the Manchester Yacht club's boat. The race was sailed in a reefing breeze, though at the end both skippers shook out full canvas and finished under it.

### Burial by Machinery.

The Armybury board at Leeds, in England, is considering the desirability of adopting a singular labor saving device for interments, says the London Chronicle. The invention consists of an appliance for lowering the coffin into the grave, and it is claimed that there is nothing to offend the sensibilities of the mourners, the body being lowered slowly and reverently. When the coffin reaches its resting place the girls of the appliance release themselves automatically. The adoption of the invention, it is pointed out, will prevent the painful scenes that sometimes occur at funerals.

### 'Tis Crustless Bread Now.

Sherry is the first of the great caterers to take up the crustless bread idea, says the New York correspondent of the Pittsburgh dispatch. A machine for the baking of the bread is being installed in his establishment, and in a few days patrons will get the latest gastronomic novelty served to them as the upper and lower decks of sandwiches or in the form of toast. There is only one crustless bread oven now in operation. That is owned by the Jersey City baker who supplies the Pullman palace car people. In the process of baking crustless bread is kept moist and remains so for ten or twelve hours. It does away with waste due to cutting crust from the ordinary baked loaf, and the use of a damp cloth to keep the loaf moist and prevent curling up is avoided. When taken from the oven the crustless bread is covered with a sort of skin or silky texture, which amply protects the interior of the loaf and is easy to masticate.

### Manners of Japan's Police.

The police in Japan are expected to learn English. For their guidance a phrase book has been compiled. The following advice is taken from it, says the Liverpool police:

"Japanese police force consist of nice young men. But I regret their attitudes are not perfectly neat. When a constable come in contact with a people he shall be polite and tender in his manner of speaking and movement. If he terrify or scold the people with enormous voice he will become himself an object of fear for the people. Civilized people is meek, but barbarous people is vain and haughty. They should imitate themselves to Caesar, the ablest hero of Rome, who has been raised the army against his own country crossing the Rubicon."

### SAD DROWNING

Details of the Drowning of the Thirteen Year Old Son of Mr. and Mrs. D. B. Schontz at Correctionville

The following details relating to the drowning of thirteen-year old Basil Schontz, son of Mr. and Mrs. D. B. Schontz, the latter a former resident of this city, are taken from the Sioux Valley News, of Correctionville, Ia.:

"Last Monday morning at about 11 o'clock occurred the death of two of the most beautiful and most promising young boys of our city, Basil Schontz and Alvin Page, ages thirteen years each. The little boys in company with Vannard Tangborn, aged ten years, went down to the river to set fish lines and were a short distance south of the Northwestern Railroad bridge. Basil had his dog and they played along the banks quite a while before they thought of going in the river. Neither Basil nor Alvin had been forbidden to go in the water, but Vannard who followed his mother's instructions did not go in. The two boys undressed and waded a while when suddenly Alvin stepped into a hole and got into water about twenty feet deep, and Basil seeing his peril went in after him. Then Vannard, thinking perhaps to help them both, waded in to his knees but could not reach them and got out and came up town and gave the alarm. More quickly than can be imagined teams and autos carried almost every man in town to the river bank. Drs. McQuitty and Thompson were summoned and the men began search for the bodies. Though many were assisting, both were found by Merton Patterson. Basil's body was recovered about an hour before Alvin's. Every effort was made to restore life but in vain, and it can truthfully be said that no town ever contained more sorrow than Correctionville that day. It was said many times on the street that no one could have picked out two boys anywhere that were more gentlemanly, more beautiful, more promising, or that would be more missed. It was a significant fact that Basil and Alvin were the only ones in their Sabbath School class the day before their death. Basil was the youngest child of Mr. and Mrs. D. B. Schontz. He was admired everywhere and was the kind of boy that everybody wanted to put their arms around."

### Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest on my hands and knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." ## A VERY PRETTY CHURCH WEDDING

Mr. Charles Warren Hoffman and Miss Edna Twining Stickney United in Marriage

### AT ST. PAUL'S EPISCOPAL CHURCH

One of Most Important Nuptial Events of Season, Young People Being Popular

There was a very pretty wedding last night at St. Paul's Episcopal church when the marriage of Mr. Charles Warren Hoffman to Miss Edna Twining Stickney was solemnized. The wedding was noted perhaps for its simplicity, but withal it was beautiful and it may be truthfully said that no handsomer bride ever kneeled at an altar in Brainerd than this fair young lady.

The wedding occurred sharp at 9 o'clock. The wedding party arrived promptly, entered the church and marched down the aisles while the Clover Leaf Trio, not unknown in musical circles in the city, sang the bridal chorus from "Rose Maiden". This trio is composed of Mrs. Mabel Davis Cameron, Mrs. Maude Davis Mowers and Mrs. Marie Edwards Speer and they have sung together often before in Brainerd. Miss Millicent Mahlum presided at the organ as accompanist.

In the processional Mr. George Nevers and Mr. George Forsythe, ushers, led the way. They were followed by the bridesmaids, Miss Lillian Hoffman, sister of the bridegroom, and Miss Ella Mitchell. They were followed by Miss Corna Stickney, sister of the bride, and maid of honor. Then came the bride leaning on the arm of her father, Mr. H. A. Stickney, who gave her away. The bride was attired in a gown of white organdie, trimmed with valenciennes lace, and she also wore a long beautiful white veil and carried a shower of carnations. The ladies of the bridal party were dressed in white.

The bride was met at the chancel by the bridegroom, Mr. Hoffman, and his best man, Mr. George W. Grewcox, and the bridal pair marched slowly up to the altar where the Rev. William J. Moody was in waiting. The simple but impressive marriage service of the Episcopal church was read. During this service Miss Mahlum at the organ played softly and for the recessional she played Lohengrin's wedding march.

The decorations at the church were exceptionally beautiful, daisies and asparagus ferns being used in profusion. Three grand arches were erected over the center aisle covered with the fern and studded like a myriad of stars with the daisy flower. The same color scheme was carried out in front of the chancel and on the altar, white flowers, ferns and palms being used in large quantities.

The front seats of the church were reserved for the members of the Bachelor Maids and Black Hawk clubs and they appeared in full evening dress.

Immediately following the ceremony at the church a reception was given at the home of the bride, 515 North Broadway. Here again the decorations were very beautiful, sweet peas being used in large quantities. The dining room was prettily decorated in pink and white and a large center piece of sweet peas rested on the table. Pink ribbons were hung from the chandeliers to the four corners of the table and fern was hung artistically about the room. Here ice cream, cake and candies were served the guests.

None but the members of the bridal party received at the house, and the Bachelor Maids presided over the tables. The decorations both at the church and the home of the bride were arranged by the Bachelor Maids, who

have been very busy with the affair for some time.

The presents received by the bridal pair were many and beautiful.

The church was packed, showing as it did the popularity of the bridal couple. Mrs. Hoffman, the bride, is the eldest daughter of Mr. and Mrs. H. A. Stickney and is one of Brainerd's fairest daughters. She is extremely popular, and was one of the leading society ladies of the city. Mr. Hoffman is the only son of Mr. and Mrs. A. L. Hoffman, of this city. He is associated with his father in the hardware business and is an energetic, promising young business man. He is also popular among the young society people of the city.

Mr. and Mrs. Hoffman left on the midnight train for the twin cities where they will visit for a time before returning to this city. They will be at home at 515 North Broadway after August 20.

### BIG PRICE FOR IRON LAND

Crow Wing County Land Sold to Duluth Party for \$40,000 That a Year Ago Was Worth but \$10 Per Acre.

The Duluth News-Tribune today says: George H. Crosby of Duluth, has been successful in securing an option for purchase of the 280 acres of land owned by Fred and Christ Eric, on the southeast side of Rabbit Lake in Crow Wing county. It is understood that it will cost Mr. Crosby \$40,000 to exercise the option. The lands of the Eric brothers lie east of some proved iron lands owned by Cuyler Adams and his associates. Many iron ore prospectors were after the lands, but Mr. Crosby was the successful one. He has a year to conduct his explorations, and will begin at once. The Eric brothers stand to get a modest fortune for lands that a year or two ago were not considered of much value. At that time they were worth from \$10 to \$15 an acre, but if there is an iron ore deposit in them of good size and merchantable quality then the acres will become a mine instead of a farm.

### Cass County School Matters.

School District No. 1, which comprises the whole of Cass county, at their recent annual meeting held a few days ago voted to raise the salary of the members of the board from \$300 to \$500. In addition to this \$50,000 was voted for expenses the coming year, \$5,000 for nine school houses to be built in different parts of the county and \$1,000 for an addition to the Pine River school. The fact that the district is but six months behind in paying warrants is stated to be a good indication that school matters are in better shape than usual, says the Motly Mercury, and the raise in salary speaks well for the confidence of the people in the officers. The term of W. B. Jones expires August 1st and he will be succeeded by J. A. Gilbert. The bids for building the new school houses will be received up to Saturday of this week, July 29th, at Sylvan, the school board having been given full charge of the construction of the same. The next annual meeting will be held at Hazel Dell.

### MUSIC AND DRAMA.

#### "POLITE VAUDEVILLE"

The seats go on sale tomorrow morning for the next performance by the Orpheum Vaudeville Co. What could give the children as much real enjoyment these summer days as an afternoon at the popular family matinee to be given Saturday afternoon at 3:30 o'clock by the Orpheum Vaudeville company. These matinees are becoming quite the "fad" and are looked forward to with increasing interest by the little ones each week.

The program for next Saturday promises to be a very pleasing one consisting of a long list of excellent specialties by some very clever artists. The latest illustrated songs with some beautifully colored views and an unusually interesting series of moving pictures by the Edison Kinetoscope, among these, "The Troubles of a Suburbanite" is said to be very amusing—"Coney Island by Day and Night" is very interesting and "Running the Brooklyn Handicap Race" is very exciting.

### Night Mail Service.

The change in the mail service from night to day on the Duluth and Staples run which took effect on Thursday, the 27th, should be remembered by those who have been in the habit of placing their delayed correspondence on the midnight train or dropping it into the hotel boxes to be mailed by the clerk when he made the train at night. There will be no mail service, that is, no mail car or mail clerk on the night trains, and parties in order to have their mail dispatched will have to mail it in the postoffice before 8 o'clock. The last collection of mail in the business districts is made at 6 o'clock.

## PLAN OF THE KAISER

WOULD HAVE ONE OF HIS RELATIVES PLACED ON THE NORWEGIAN THRONE.

## CZAR FAVORS THE SCHEME

PROVIDED RUSSIA BE ALLOWED TO RECTIFY HER FRONTIER ON THE ATLANTIC.

London, July 27.—The correspondent of the Daily Mail at Stockholm says:

The object of Emperor William's interview with Emperor Nicholas was to obtain the consent of the latter for a prince of the house of Hohenzollern to ascend the throne of Norway. It is possible that the Russian emperor will consent provided Russia be permitted to slightly rectify her frontier on the Atlantic.

The Daily Mail, commenting on the dispatch, suggests that the "rectified frontier" means that Russia wants to acquire the strip of Norwegian territory which parts Finland from the Arctic ocean, thus gaining a seaport.

## OPINION OF DR. SVEN HEDIN.

Russia Will Eventually Seize Norwegian Territory.

London, July 27.—The Stockholm correspondent of the Morning Post sends an interview with Dr. Sven Hedin, the Swedish geographer and explorer, expressing the opinion that Russia would sooner or later seize the strip of territory which includes Tromsø, Hammerfest and Vardø, in Norway, and declaring that there is no reason why Sweden should shed blood and spend treasure in defense of that territory, although, of course, he says, Sweden would resist should Russia attempt to take still more territory.

## HOLD SECRET SESSIONS.

Both Houses of Riksdag Discuss Committee Report.

Stockholm, July 27.—Both houses of the riksdag have held secret sessions to discuss the report of the special committee appointed by the riksdag to deal with the crisis between Norway and Sweden. It is understood that the report was approved in principle.

## IN SAVING A CHILD'S LIFE.

Young Minnesota Woman Perishes in a Creek.

Minneapolis, July 27.—Self-sacrificing heroism was displayed by Ella Brown of Frederick, Minn., the eighteen-year-old daughter of Mrs. Laura M. Brown, Wednesday, when she lost her own life in the waters of Rice creek, near Fridley Park, in saving that of a little girl. Miss Brown went to the rescue of a little girl who got into deep water while wading with several companions. While Miss Brown succeeded in handing the child to her companions, her heavy clothing and the swift current bore her down and she was drowned.

## TOWARD THE NORTH POLE.

Peary's Steamer Roosevelt Continues Her Voyage.

North Sydney, C. B., July 27.—The Arctic steamer Roosevelt, bearing Commander Robert E. Peary's latest expedition, swung clear of Terminal wharf and headed northward on her voyage of discovery toward the North Pole precisely at 2 o'clock p. m. As the steamer left the wharf an immense crowd, which had gathered to witness her departure, burst into cheers which were mingled with the whistles of the steamers, and the demonstration continued as the steamer passed down the harbor. The city had been gaily decorated for the occasion.

Commander Peary, in speaking of the expedition shortly before his departure, showed firm confidence that the outcome would be successful, in which case he intends to return in September, 1906.

Mrs. Peary and her daughter, who have been with Commander Peary in this city pending his departure, have left for New York.

## HIGHLY IMPORTANT EVIDENCE.

Defense Claims It Will Be Introduced in the Koch Case.

Mankato, Minn., July 27.—Evidence new and highly important, the defense says, is to be introduced in behalf of Dr. Koch, on trial for the murder of Dr. L. A. Gebhardt at New Ulm. The defense will occupy all day Thursday. The court hopes to give the case to the jury on Saturday.

Professor Richard Fisher of Madison, Wis., state chemist of Wisconsin, who was brought to testify regarding the poison charge that was not entered into, reported the result of an examination of the illuminating power of the street lights on the Koch premises. He said that a rabbit could be seen fifty feet.

## Indians on the Increase.

St. Paul, July 27.—Final figures on the Indian population of the state were announced Wednesday by the state census bureau. The figures show that the red men have increased nearly 50 per cent in Minnesota during the past five years. The total Indian population in 1900 was 6,492, as against 10,225 in 1905.

## TELEGRAPHIC BREVITIES.

Brigadier General Thomas H. Barry has been selected for president of the war college at Washington.

Police men armed with riot guns arrested eleven bookmakers at the Delmar track at St. Louis Tuesday for violating the anti-betting law.

In consequence of a lovers' quarrel and a broken engagement, Tina Laffer, twenty-one years old, ended her life Tuesday with a dose of strychnine at Minneapolis.

Frank J. Pool, special agent of the bureau of corporations, department of commerce and labor, is investigating the business methods of the Standard Oil company in Indiana.

The tannery of Otto Taubert at St. Paul was destroyed by fire Tuesday night, causing a loss of \$30,000 and throwing thirty people out of employment. The origin of the fire is unknown.

## Valuable Elevator Destroyed.

Moherly, Mo., July 27.—Fire Wednesday destroyed the Missouri Grain company's elevator containing a large amount of grain. Loss \$200,000.

## NOW AFLOAT ON AN EVEN KEEL.

Gunboat Bennington to Be Taken to Mare Island.

San Diego, Cal., July 27.—The gunboat Bennington is again afloat on an even keel and will be towed to the Mare Island navy yard to be examined and repaired. Divers began making an examination of her hull Wednesday. Admiral Goodrich is expected to arrive on his flagship within a few hours.

An examination of the inside of the ship shows that the hull has been damaged little, if any. The water which poured in and caused the listing came through the blow holes and pipes which were broken by the force of the explosion. The entry of water is now under control and no difficulty is expected in making the vessel sufficiently seaworthy to stand the trip to Mare Island.

A private dispatch from Oakland states that the mother of E. B. Robinson, one of the Bennington victims, has lost her mind through grief.

No deaths have occurred since that of W. V. Kennedy on Tuesday, which brought the total up to sixty, but inquiry at Agnew's sanitarium elicited the statement that no hope is entertained for the recovery of at least three men.

## NEGRO MURDERER AT BAY.

Surrounded in a Burning Swamp by Armed Men.

Plainfield, N. J., July 27.—Baffled by treacherous swamps and thick woods, a posse of farmers and police have surrounded Charles Long, a negro, accused of murdering Matthew Cunningham of Trenton, N. J. They have set fire to more than fifteen acres of shrubs and bushes on the outskirts of "Dismal Swamp," between South Plainfield and Newark, N. J., in an effort to drive the man out of his hiding place.

A brisk wind blowing over the swamp from the direction in which the fire was started took the smoke through the woods and it is not thought that Long will be able to stay where he is and live. In readiness for his appearance, the members of the posse are armed with shotguns and should Long make any attempt at resistance he will be killed.

## JUGGLING OF FIGURES

ASSISTANT SECRETARY OF AGRICULTURE HAYS REPORTS

CULTURE HAYS REPORTS ON COTTON ACREAGE.

Washington, July 27.—Assistant Secretary of Agriculture Hays during the day made the following report to Secretary Wilson on the acreage of cotton in the Southern states in 1905 as compared with that planted in 1904:

"The crop estimating board of the department of agriculture has considered the report issued by the bureau of statistics on June 2 relative to the acreage planted in cotton in the Southern states in 1905 as compared with that planted in 1904 and has concluded:

"First—That a new estimate should be made on acreage planted and that the figures in Mr. Hyde's hands when making his estimate should be used as the basis.

"Second—That Mr. Hyde, with Mr. Holmes at his elbow prompting him, made the estimate lower than the facts in his hands from the reports from the seven classes of reporters employed by the bureau warranted.

"Third—The board finds, on careful consideration of the reports of all classes of correspondents and agents, that the acreage planted in cotton this year, including the entire season, should have been estimated at 85.1 per cent of that planted last year, equivalent to a reduction in planted acreage as compared with last year of 14.9 per cent (instead of 11.4 per cent), or 4,731,000 acres—the estimate of the total acreage planted this year being 26,999,000 acres."

## PANAMA POLICE MUTINY.

Quickly Brought to Submission by the Secretary of War.

Panama, July 27.—A mutiny took place among the police force here Wednesday, but it was quelled almost at the beginning by Santiago de la Guardia, secretary of war, who faced the mutineers with a drawn revolver and, backed by the officers of the force, brought them to submission. The principal leaders were severely chastised by the secretary and the other mutineers were placed in irons. Politics had nothing to do with the mutiny.

## WILL WITHDRAW OPPOSITION.

John Redmond's Obstructionist Tactics Unpopular.

London, July 27.—John Redmond, the Nationalist leader, and his followers continued their obstructionist tactics of blocking private bills in the house of commons Wednesday, but according to the Morning Post, as the result of remonstrances which have reached them from all parts of the country representing the injustice which such tactics inflict on a large body of workmen, they have decided to withdraw all further opposition to such bills.

## Two Sisters Drowned.

Lacrosse, Kan., July 27.—Mattie and Grace Wigner, sisters, aged fourteen and sixteen years respectively, were drowned while attempting to ford a creek west of here Wednesday. The stream had been swollen by a heavy rain.

## ON GUNBOAT BENNINGTON.

Report of Preliminary Examination Received at Washington.

Washington, July 26.—A brief report of a preliminary examination by Naval Constructor Evans of the inside of the gunboat Bennington, whose boilers exploded last Friday, was received at the navy department Tuesday from Captain Drake of the Mare Island navy yard, who is now at San Diego. The constructor found no leaks through the hull plating and all the leaks through the sea valves and the broken pipes have been stopped. It is proposed to make an examination of the outside hull, secure boilers to replace those damaged by the explosion and to tow the gunboat to Mare Island with an escort. The Bennington has been floated and is now alongside the wharf.

## BETWEEN LIFE AND DEATH.

Six Injured Sailors of the Bennington Still Linger.

San Diego, Cal., July 26.—There is little hope that the burial chapter of the Bennington incident is finally closed, for half a dozen badly injured sailors are lingering between life and death and for some of them there is little chance for recovery.

The removal of the Bennington to a position alongside a pier will facilitate examination of her interior. The supply ship Iris has arrived from San Francisco. She has on board divers and diving outfits and the work along the bottom of the boat will be begun at once.

## BISHOP SCHINNER CONSECRATED

Many Church Dignitaries Attend the Ceremonies.

Milwaukee, July 26.—Very Rev. Augustin Schinner was during the day elevated to the high office of bishop of the newly created diocese of Superior, Wis. The ceremonies were conducted in St. John's cathedral and were most elaborate. Mr. Diomedeo Falconio of Washington, apostolic delegate to America; Archbishop S. G. Messmer and many bishops and priests officiated at the consecration.

## TELEGRAPHIC BREVITIES.

John M. Collins has been appointed chief of police of Chicago.

The Victorian assembly Wednesday passed a bill granting the elective franchise to women.

The lumber yards at Preston, Minn., were destroyed by fire Wednesday with a loss of \$50,000.

The body of Daniel S. Lamont was placed in the Lamont mausoleum in Woodlawn cemetery, New York, Wednesday.

At Montreal, Que., C. E. Desmarieau Wednesday broke the world's fifty-six-pound shot throwing record for height. He put it over fifteen feet and eleven inches.

## BEGINS HIS INVESTIGATION.

District Attorney Jerome Inquires Into Equitable Society's Affairs.

New York, July 27.—District Attorney Jerome returned from his summer home at Lakeville Monday and immediately began his promised investigation of the affairs of the Equitable Life Assurance society. At the close of the day Mr. Jerome issued the following statement:

"I went to the Equitable building to meet Mr. Harriman as I understood that he was going away tomorrow and I desired to see the much talked of 'Union Pacific preferred syndicate agreement.' I made a careful examination of the terms of the agreement. Mr. Harriman also stated that his books and papers were in the custody of his counsel, Judge Lovett, who was instructed to produce at any time any of them that I might deem of importance in the conduct of my investigation of matters within my jurisdiction. The syndicate agreement was one of the terms of which would have at any time been produced for the inspection of the superintendent of insurance. The Equitable Life Assurance society was not a party to said agreement and had not been at any time."

## SCORES INSURANCE COMPANY.

Massachusetts Commissioner Fiercely Denounces Them.

Boston, July 27.—Scathing criticism, pointed condemnation and fierce denunciation of the methods and course of the big insurance companies, characterized the annual report of Frederick L. Cutting, commissioner of insurance for Massachusetts, issued Tuesday. The report is exhaustive in its review of methods employed by high insurance officials during the past several years, to whom he alludes in some instances as "Judases," and to one company as the "Dr. Jekyll and Mr. Hyde" company, and contains a recommendation that the legislature at its next session take up the matter of deferred dividends and the relation between insurance companies and their allied trust companies and other questions, with a view of compelling reform.

The report considers insurance in connection with the "gambling instinct of the age," and tells of the influence upon the officials of insurance companies from the "dubious schemes," "schemes for getting enormously rich," the "graft by city officials, state officials, national officials, petty legislators, congressmen, United States senators and courts subservient to the great Moloch, money," that they have seen all about them, and they also saw "tainted money eagerly sought by college and pulpit."

## The Diamond Cure.

The latest news from Paris, is, that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee, of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for consumption, coughs and colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure, for throat and lung troubles. At H. F. Dunn & Co.'s drug store; price 50c and \$1.00, guaranteed. Trial bottle free.
